Ohhhh, it *has* been a while.

For the Thimbletron , specifically. We had intended to re-present it at the Inspiration Manifestation show a couple months ago, but... um, we couldn't find it. Oh c'mon, give us a break -- we've **relocated ECC operations** back to Ohio from San Francisco, and almost all of the ECC studios is still in boxes until we get the studio rebuilt in another one to two weeks.

And frankly, although we've now located the Thimbletron... um... **we're not positive it works.** Well, I suppose we've never been completely confident about the safety of **thimbletronic radiation** at public performances like this, but we always manage to make a show happen irregardless of public safety concerns.

Especially when it's another Frequency Friday from Fuse Factory . They've been supporters of ECC enough to bring us from San Francisco to Columbus for shows, and now that we're local we're hungry for more. **Ch eck out our company for this Friday's show:**

## February Frequency Fridays: Evolution Control Committee + Le Scrambled Debutante + Doctah X + Solumenata

Our February Frequency Fridays show features culture jammers/mashup band Evolution Control Committee (CMH), electronica-dub artist Doctah X (CMH), and sonic dadists Le Scrambled Debutante (Louisville, KY).

**Date: Friday, February 3 2012. Location: Wild Goose Creative (2491 Summit St. 43202). Admission: $10. Doors open 8pm.** Our Frequency Fridays 2011-2012 season is supported

by a generous grant from the Greater Columbus Arts Council.

Stay tuned -- coming up, another Columbus Museum Of Art Game Show and other great projects to come.
