Fock It

Although The ECC maintains a SoundCloud account , we're cheap about it. Hence, tracks there have a limit on how many people can download it. Not so over here on the ECC mothership. So, when we got a message from SoundCloud that our track "Fock It" from *All Rights Reserved* was reaching that limit, we figured it was time to post it here. Actually it was available here all along, as part of a bundle of MP3s offered on our general
ECC MP3s page
. Still, using our search box didn't point to it, so let's fix that with this very post.

As the SoundCloud post explains:

Subtle, this one... some don't catch the joke.This is Herbie Hancock's synth instrumental anthem "Rock It" remixed and retuned to play Harold Faltermeyer's "Axel F" synth instrumental anthem instead.

To download, Right-Click (Windows) or Ctrl-Click (Mac) on the song name below:

Fock It
