

It's surprising that The Evolution Control Committee hasn't played any events connected with the [Church Of The Subgenius](#) since 1991, considering the overlap between the two audiences. Luckily 2011 was the year to fix that at the Subgenius X-Day 14 over July 4th weekend. Why did we wait so long? Subgenius style is a total match for The ECC, and our show went over incredibly well. Well enough that Subgenius super-genius Rev. Ivan Stang played a good chunk of the show on [episode 1324 of Hour Of Slack](#). Well enough that it inspired others to request the whole thing from us.

Behold! Here's the whole ECC performance. Right-Click (Windows or Ctrl-Click (Mac) on the file name to download. Enjoy.
