

After DJing the [Game Show 2](#) event at the [Columbus Museum of Art](#) I just couldn't say no to DJing the next one. Here it comes: This Friday the CMA presents

Game Show 3! ☐

The Game Show is all about encouraging the audience's creativity, and while that may make you roll your eyes like it'll be some forced teaching assignment, one worldly friend who saw the last one said she "knew that's what it would be about, but was surprised that

it was actually awesome!"

The ECC's TradeMark G. provides a live soundtrack as members from the audience create bugs, rhymes, rock stars, yeti-proof shelters, and **a meal fit for a ghost panda.**
