

The Ingenuity Festival Cleveland returns ...and so does The ECC

The Evolution Control Committee has had **great times** performing at Cleveland's great IngenuityFest art & technology festival in the past (

[2008](#)

,
[2009](#)

,
[2011](#)

...) so when their call for artists came out for this year's event we applied, but then wondered -- *what haven't we done already?*

They've invited us so often before that we've performed **every kind of show we've ever made** (except for our radio show... hmmm) and we'd rather not repeat ourselves. Then we remembered our great time earlier this year at [Columbus Museum of](#)

[Art's Connector Series](#)

, letting anybody and everybody come up to play with our custom-built music controllers, devices, and toys... ahhhh, good times. Yes!

That's it!

So this coming weekend The ECC hauls up a full load of tech magic for you, yes **YOU, to play with.**

Ever wanted to try your hand at our amazing

[VidiMasher](#)

[3000](#)

(from our

[The Wheel Of Mashup](#)

shows)? Or the

[Thimbletron](#)

? The

E

[Object Turntable](#)

? Come to Cleveland and play with these and more!
