On this week's **Sound Of Plaid** internet radio we are proud to present our very special guest [K OMEGA](#)

! We'll keep him from his usual packed schedule of creating
amazing
[light](#)
and
[sound](#)
devices...

and
making music on them...
and
performing that music at controllerism-friendly
[LoveTech](#)
shows (which he co-founded)... how he finds time to
also
work a job, I cannot imagine. (Well, working for a
[super-cool tech artist](#)
doesn't hurt, I'm sure.)

But don't expect much of that on our radio show this week. His [new website](#) does much better justice to showing off his

[lovely creations](#)
that our eloquent on-mic descriptions ever could. Instead, Komega will bring (in his word)
"a lifetime of [vinyl] musical memories:

78's from the 40's, 45's from the 70's and 80's...
it's gonna be B-side craziness."

You had us at 78's, Craig.

Many chances to hear the show, and if you can't make the times below, you can hear it at [The Sound Of Plaid Archives](#)
(new & improved!) later in the week.

(Photo by [Dustin Diaz](#) without permission 'cuz it's simply the best picture of Komega out there)

Just to show you what you're missing -- one of his devices, the **Komegatone**:
