

Poland may not be the first country you'd imagine to be green (in the recycling sense of the word), but this weekend marks the 5th year of their international **Przetwory (Recycles) Festival**.

Artists will spend a few days remaking unwanted materials into amazing works of art and design, to be judged by an international jury of fine arts movers & shakers. Hosted in a giant warehouse in the Praga district of Warsaw, the event will draw an audience of thousands.

The ECC will represent at this Maker-Faire-style event with the VidiMasher 3000, using it to create something more than a DJ set, but short of a full performance. **This is your best chance in Warsaw to see what an ECC show is like!**

## PRZETWORY/RECYCLES 5

### OPENING TIMES

Artists start their work on Thursday and Friday (9th and 10th of December)

RECYCLES 5 exhibition will be open for the public

on Saturday (11th of December) between 3pm-8pm

on Sunday (12th of December) between 12am-7pm

[...] After four-year struggle related to organizing RECYLES event we can easily position ourselves on the

**This year we are willing to go one step further by asking the artists a provocative question: HOW**

This year's fifth edition of the RECYCLES festival will have an international rank.

Organizers with the support of Culture Institutes from England, Spain, France, Netherlands and
