

The ECC will bring the [Thimbletron](#) back to Ohio by request for [Ingenuity Fest Cleveland](#), a weekend-long multi-venue arts and technology festival. I can't think of the last ECC show in Cleveland -- well over five years ago -- and high time to fix that!

Performances times are yet to be announced, but for now, bank on:

Thu 07/24/08: Morning TV appearance

Fri 07/25/08: Perform at Ingenuity's All Go Signs event

Sat 07/26/08: Perform at Ingenuity's NPI Hanna stage

See their [website for more details](#) of all the artists and events happening -- it's packed!
