

Hopefully you were one of the 1,000+ people that showed up for Bootie and The Evolution Control Committee -- it was one spectacular show! The Wheel Of Mashup spun well, our VidiMasher 3000 operated nicely, and thanks especially to The ECC's dancers The Mashettes! Thanks also to A plus D for having us once again to Bootie, and to Dannie for wheel work.

You can relive this show with the magic of MP3s, thanks to DNA Lounge [recording and posting MP3s of every show they do](#), available for two weeks following the show date. If you want a [recording of the whole night](#), which also includes music from Tim Barsky, the human beat box, Adrian and Mysterious D and more, [listen at DNA Lounge's archive](#) (until 23-May-09). Otherwise, listen/download just the ECC's show here:
