As promised, we're coming back LA: The Evolution Control Committee performs at [Alex's Bar](#) for the Cafe Racer Ride-In (thanks [Ed!](#)

). Fresh from Europe (stylistically, if not aromatically) we'll set up the Wheel Of Mashup featuring the Vidimasher 3000 for all your SoCal pleasure! It's an early show -- door at 5, first band at 6 -- just right for a Sunday night. Still working on more shows for the weekend -- anyone? Little help?
